Writeshop 3.0

Tamil Nadu Agricultural University

The Tamil Nadu Agricultural University (TNAU) had its genesis from the establishment of an Agricultural School at Saidapet, Madras, Tamil Nadu, as early as 1868, and it was later relocated to Coimbatore. In 1920 it was affiliated with Madras University. TNAU assumed full responsibilities of Agricultural Education and Research and supported the State Agricultural Department by delivering research products. Till 1946, the Agricultural College and Research Institute, Coimbatore, was the only Institute for Agricultural Education in the whole of South India. In 1958, it was recognized as a Post-graduate Centre leading to Masters and Doctoral degrees.

Madras Agricultural Students' Union

Madras Agricultural Students' Union (MASU) started in the year 1911, was registered as a Society in 1923. MASU has been publishing the Journal of Current Crop Science and Technology (Formerly Madras Agricultural Journal) since 1913 and is one of the longest-serving journals in India for the students and research community in agriculture and allied subjects. The journal is subscribed by many National Institutes/Organizations and is abstracted in Commonwealth Abstracts (CAB), Chemical Abstracts, Current Contents (Internationally reputed abstracting journal) and major annual reviews of scientific publications for the past five decades. The first President of MASU was Mr. Cecil Wood, the first Vice-President was Mr. De Silva, and the first Secretary and Editor (MAJ) was Mr. Ramaswamy Sivan. Several distinguished agriculture research scientists from Southern India, including Dr.M.S.Swaminathan, have served as members and officials in MASU. The Society has been functioning without a break from its inception. Presently (2022), MASU has 711 life members, 91 annual members and 17 institutional members from various parts of the country, besides 4500 student members.

Writeshop 3.0

ABOUT THE WRITESHOP

The primary goal of the writeshop is to improve and enhance the research quality by publishing our research in high impact factor journals. Earlier MASU has jointly organized several such workshops during 2017 to 2019, targeting PG students and faculties of TNAU. The previous Writeshop (Writeshop 1 and 2.0) on varied themes related to manuscript writing and publication, received active participation (Hybrid-mode) of over 800 participants, majorly research scholars, faculty, and students of TNAU, ICAR, CSIR institutes and other state universities. The lectures were delivered by eminent scientists and resource persons from TANUVAS, ELSEVIER, and TNAU.

BENEFITS

- The efficient way of summarizing the critical review of literature.
- Confirmation of research topics to avoid plagiarism.
- Planning research experiments and modeling.
- Experimenting and proving the research hypothesis.
- Conceptualising and hypothesing the research gaps.
- Methods of confirming the data originality, interpretation skills and statistical tool analysis.
- Language usage in research papers.
- Understanding and avoiding plagiarism.

The workshop has been designed to acquire transferrable research skills, and to bring out renowned publications, with the following contents by eminent faculties.
