

# New Names for Old Plants.

(Continued from page 283 of Vol. X. 9. 1922).

P. S. JIVANNA RAO.

Since the note on the above subject was published in the 1922 volume of this Journal part V of the Madras Flora appeared in 1923, part VI in 1924 and part VII soon after the death of the author last year. It may be estimated that a third of the Flora still remains to be written and the work, we understand, has been entrusted to Mr. C. E. C. Fischer a retired Conservator of Forests of Madras and sometime Principal of the Forest College at Coimbatore who has made notable contributions to Systematic Botany.

OLD NAME.	NEW NAME.	NATURAL ORDER.	COMMON NAME.	REMARKS.
Vinca rosea	Lochnera rosea	Apocynaceae	Periwinkle,	Ornamental plant.
Vinca pusilla	Lochnera pusilla	Do.	Sudukattumalli	Weed.
