

Weather Review (MAY 1937).

A temporary advance of the monsoon occurred on 17th in the neighbourhood of Ceylon. The monsoon became active on 19th and later weakened after making a feeble advance along the Malabar Coast. In the beginning of the last week, it became strong from Comorin to Arakan and caused thunder rain in Mysore, South-east Madras and Malabar. Throughout the last week the monsoon was strong and active to the west of Ceylon and in the Bay of Bengal.

Thunder showers were general with local rains all over the Peninsula.

Rainfall was in large defect throughout the peninsula and markedly so in the West Coast.
